A Comprehensive Approach to Bullying Prevention

Awareness and Prevention of School Based Bullying

Brian Dean, Educational Consultant
WI DPI
August 31, 2022
Session Agenda

- What is bullying?
- Current anti-bullying laws
- The role of schools in responding to bullying
- What can parents do?
- Resources
Bullying is unwanted, aggressive behavior among school-age children that involves a real or perceived power imbalance. The behavior is repeated, or has the potential to be repeated, over time. Both kids who are bullied and who bully others may have serious, lasting problems.

In order to be considered bullying, the behavior must be aggressive and include:

- **An Imbalance of Power**: Kids who bully use their power—such as physical strength, access to embarrassing information, or popularity—to control or harm others. Power imbalances can change over time and in different situations, even if they involve the same people.

- **Repetition**: Bullying behaviors happen more than once or have the potential to happen more than once.

("What is Bullying" Stopbullying.gov.)
Types of Bullying

01 Verbal
- Teasing
- Name calling
- Threats and taunts

02 Social
- Leaving someone out on purpose
- Spreading gossip and rumors
- Embarrassing someone in public

03 Physical
- Hitting, punching, kicking
- Intentionally spitting (coughing)
- Taking and/or breaking someone else’s things
All bullying is aggression but all aggression is not bullying.
## Conflict vs. Bullying

<table>

Wisconsin State Statute 118.46

- Requires schools to create and implement an Anti-bullying policy and share it annually with all pupils, families, parents and guardians
- Requires DPI to create a model policy
DPI Model Bullying Policy Requirements

- A definition of bullying
- A prohibition on bullying
- A reporting procedure
- A prohibition on retaliation
- A procedure for investigation
- Officials must report incidents and identify to whom reports are to be made
• A list of disciplinary alternatives
• Identify school related events at which the policy applies
• Identify property owned, leased, or used on which the policy applies
• Identify the vehicles used on which the policy applies
What WI Stat 118.46 Doesn’t Do

- Require schools to adopt DPI Model Policy
- Require programming or curriculum
- Authorize DPI to monitor or intervene in district anti-bullying policies and programs
- Provide a state level complaint process
Role of Schools

Wisconsin is a local control state meaning:

• Aside from the legal requirement to have and share their anti-bullying policy, school districts will decide how to address bullying.

• School districts are responsible for implementing their policy.
What Can Schools Do?

Develop a comprehensive approach to bullying including:

- Clear, concise and well communicated policies and procedures
- Selecting and implementing evidence-based programs and strategies
- Parent education and communication
What Can Schools Do?

• Universal supports/build a Positive School Climate
  DPI Free School Climate Survey:
  https://dpi.wi.gov/slds/climate-survey-information

• Classroom instruction/may include SEL https://dpi.wi.gov/sspw/mental-health/social-emotional-learning

• Selected and Intensive supports

• Clear and accessible reporting systems

• Analysis and continuous improvement

Bullying Prevention Program Assessment Tool
What Can Schools Do?

• Be responsive to student and parent concerns
• Complete a fair and thorough investigation of bullying reports
• Separate students involved; interview bystanders
• Be as transparent as possible while maintaining FERPA compliance
• Approach parents, guardians and families as partners rather than adversaries
## What Can Schools Do?

### Direct Classroom Instruction

<table>
<thead>
<tr>
<th>Name</th>
<th>Evidence</th>
<th>Cost</th>

<tr>
<td>LifeSkills</td>
<td>Current Study</td>
<td>~$1,000 per teacher</td>
</tr>
<tr>
<td>ACT Now</td>
<td>Pre/Post Tests</td>
<td>FREE</td>
</tr>
</tbody>
</table>
What Schools Should Avoid

• Encouraging the bullied and the student bullying to “work it out”

• Putting students together to work it out. Restorative Practices approaches for bullying have the potential for increasing harm. Caution is required with this approach

• Making assumptions about the situation without proper investigation
If the bullied child is being discriminated against due to his/her disability (or other protected class status):

Follow the protocol outlined in the Pupil Non-discrimination Program
Wisconsin state statute 118.13 states no pupil may be excluded from a public school, or from any school activities or programs, or be denied any benefits or treated in a different manner because of:

sex, race, religion, national origin, ancestry, creed, pregnancy, parental status, marital status, sexual orientation, physical disability, mental disability, emotional disability, or learning disability.
What Can Parents Do?

• Watch for **warning signs** that your child may be bullied
• Reach out to the school to ask for help. Connect with a school psychologist, counselor or social worker
• Follow the chain of command if your concerns are not being addressed
• Approach the school as a partner rather than an adversary
• Ask the school to develop a plan, with you, to provide an outline of how future incidents may be avoided or handled
What to Avoid As A Parent

• Confronting the parents or family of the student who is bullying
• Asking for specifics about other students involved. Schools are bound by state and federal law and cannot legally share that information
Next Steps for Schools

• Review the District Bullying Prevention Policy
  Does it require any modifications or clarifications due the pandemic?
  Do the bullying prevention policy and discipline policy align?

• Collect and review data to get a clearer picture of the current situation (complete Climate Survey)

• Collaborate across stakeholder groups to identify the current needs and gaps in the district and community bullying prevention strategy

• Provide students with a universal curriculum that fits the school’s needs

• Develop clear and well-communicated procedures for reporting bullying, investigating reports and communicating with families, students and staff
